10 YEARS OF CYBER SECURITY FOR EUROPE 2004 · 2014

▶ This high level ENISA event will look ahead at the future cyber challenges for Europe, as well as recapping the achievements of the Agency during the past 10 years.

Topics will include:

• Can Cybersecurity be an Economic Enabler?

• Can we Secure Future Technologies?

• Cyber Security in the EU – achievements and future challenges

• Showcase in a Live Hacking demonstration
