

- The Swedish CC Scheme - Work on Four Protection Profiles

Martin Bergling
Technical Manager

THE SWEDISH
CERTIFICATION BODY
FOR IT SECURITY

The Swedish Scheme

CSEC's Main Tasks

- **Licensing of ITSEFs**
- **Oversight of ITSEFs operations**
- **Training and support to ITSEF**

- **Participate in international cooperation:**
 - **Interpretation**
 - **Harmonisation**
 - **Standardisation**
- **Marketing of CC**

Oversight of evaluations

- **Review evaluation reports**
- **Write certification reports**
- **Issue certificates**
- **Publish list of certificates**

Maintain and develop the Scheme

- **Enforce the rules of the Scheme**

Some current activities within CSEC

- **Four ongoing certifications**
- **Two certifications about to start**
- **Joint project with other Swedish government agencies to establish a national PP library**

The Swedish national PP library

- **MSB – Swedish Civil Contingencies Agency**
 - Task: to enhance and support societal capacities for preparedness for and prevention of emergencies and crises
 - Has mandate to issue regulations on IT-security for government agencies
- **MSB has initiated work in order to specify requirements on IT-security products**

Strategy - Factors

- **Number of installed products of a certain category**
- **Number of known attacks/incidents caused by products of a certain category**
- **Estimated risk for future attacks**
- **Swedish technical expertise**
