1. The conformity of **European Digital Identity Wallets and the electronic identification scheme under which they are provided** with the requirements laid down in Article 5a(4), (5), (8), the requirement for logical separation laid down in Article 5a(14) and, where applicable, with the standards and technical specifications referred to in Article 5a(24), **shall be certified** by conformity assessment bodies designated by Member States.

*And several other articles providing additional details, including the need to define an Implementing Act “establish[ing] a list of reference standards and where necessary, establish[ing] specifications and procedures for the certification of European Digital Identity Wallets referred to in paragraph 1, 2 and 3 of this Article”.*

Article 5c

# CURRENT STATUS

**The Commission is working on Implementing Acts on functionality and on certification, standards are being developed, and ENISA has received a request.**

## Implementing acts

- The work in the committees has started for Implementing Acts on 5a and 5c

## Standardisation

- Many standards on specific topics under way, likely quite a few more to come

## Certification schemes

- Work on the European scheme to start in 2025
- National schemes to be set up in the meantime to certify the first wallet implementations
  - These national schemes can be specialised for a given architecture

# PANELISTS

**Looking at standardisation and certification from different perspectives.**
