The contracting authority is purchasing on behalf of other contracting authorities: no

Section II: Object of the contract

II.1) Description

II.1.1) Title attributed to the contract

Optimisation of ENISA threat analysis process.

II.1.2) Type of contract and location of works, place of delivery or of performance

Services

Service category No 8: Research and development services

Main site or location of works, place of delivery or of performance: Mainly at contractor's own premises.

NUTS code GR431

II.1.3) Information about a framework agreement or a dynamic purchasing system (DPS)

II.1.4) Short description of the contract or purchase(s)

Subject of this contract is the provision of consulting services consisting of analysis and identification of optimisation options of the ENISA threat analysis process. In doing so, the contractor will perform a detailed stock taking of the analysis process as currently performed by ENISA.

In particular, ENISA wants to improve this process by:

— applying lessons learned (see ETL 2013 report2),

- leveraging on synergies, and
- use of open source approaches, tools and data.

Objective of the project is to work out implementable improvement options for the existing ENISA threat analysis procedure. In order to achieve this objective, some aspects of the threat analysis process need to be taken into account.

As a result, the contractor will propose feasible optimisation and improvement options. The improvements to be achieved should be adapted to current state-of-play in the ENISA threat analysis process. They should be made by having in mind the balance between practicality-quality-costs-effort.

II.1.5) **Common procurement vocabulary (CPV)**

73000000

II.1.6) **Information about Government Procurement Agreement (GPA)**

The contract is covered by the Government Procurement Agreement (GPA): no

II.2) **Total final value of contract(s)**

II.2.1) **Total final value of contract(s)**

Value: 47 500 EUR
