Services  
Service category: No 8  
Main place of performance Mainly at contractor's own premises.  
NUTS code GR431

**II.1.3) The notice involves**

**II.1.4) Short description of the contract or purchase(s)**

ENISA requires the provision of specialised services for reinforcing national and governmental CERTs. The services required have been presented as 3 lots, with the specific requirements for each lot as follows:  
a) lot 1: operational gaps and overlaps on European level. The objective of this lot is for ENISA to procure services in order to carry out an analysis of operational activities that the national/governmental CERTs carry out in order to provide essential services to their constituency;  
b) lot 2: proactive detection of network security incidents. ENISA aims at procuring services in order to perform the stocktaking of available methods, activities and information sources for proactive detection of network security incidents, which are used already or potentially could be used by national/governmental and other CERTs;

c) lot 3: secure communication with the CERTs and other stakeholders.

ENISA aims at procuring services in order to create a proposal for a channel(s) for secure communication with the CERTs and other varying stakeholders and a roadmap for implementation of such a channel(s) and future development.

II.1.5) **Common procurement vocabulary (CPV)**

73000000
