# European Cyber Security Month

Conclusions to be used from the "European Cyber Security Month - Deployment report 2014"

- We call on Member States to promote and inform their NIS stakeholders on time
- In 2015 and 2016 the work programme mentions that ECSM will be further developed following its basic principles, namely:
  - ➢ Support the multi-stakeholder governance approach.
  - ➢ Encourage common public-private activities.

  - ➢ Assess the impact of activities, optimizing and adapting to new challenges.
