Main site or location of works, place of delivery or of performance: Mainly at contractor's own premises.

NUTS code GR431

II.1.3) Information about a framework agreement or a dynamic purchasing system (DPS)

II.1.4) Short description of the contract or purchase(s)

ENISA requires the provision of specialised services dealing with an EU overview on trusted infrastructures and services. The services required are summarised below:

— identify the e-signature and e-identity related trust infrastructures and service providers (TSP) used in e-gov applications in the EU and make an inventory of them,

- make a description of the most important technologies and security mechanisms used by the above identified TSPs,
- provide a more complete picture of the technologies used by the TSP in the EU. This will allow the assessment of the risks of cross-border unreachability,
- collect ideas for the harmonisation of requirements applicable to TSPs in the EU. The result of this analysis is intended to promote harmonisation of risk mitigation tools implemented by TSPs,
- provide recommendations to e-gov portal managers on the following:
 - the trust services they may integrate into their building blocks, so as to improve the trustworthiness of the services they provide,
 - the requirements they may impose on the TSPs to ensure ongoing trustworthiness of their services.

II.1.5) **Common procurement vocabulary (CPV)**

73000000

II.1.6) **Information about Government Procurement Agreement (GPA)**

The contract is covered by the Government Procurement Agreement (GPA): no

II.2) **Total final value of contract(s)**

II.2.1) **Total final value of contract(s)**
